DETAILED ACTION

1. This Office Action is in response to Amendment filed on Jan. 08, 2004. Claims 1-34 have been canceled.
2. Claims 35-55 have been added.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 35-51 and 55, drawn to network system for routing information to one or more recipients, classified in class 455, subclass 428.
 - II. Claims 52-54, drawn to fault detection of a switching system, classified in class 455, subclass 404.1 or class 370, subclass 242, 244.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as alarm transmission instruction. See MPEP § 806.05(d).
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
6. During a telephone conversation with Lan, Yan on Feb. 27, 2004 a provisional election was made without traverse to prosecute the invention of group I, claims 35-51 and 55. Affirmation of this election must be made by applicant in replying to this Office

action. Claims 52-54 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lan, Yan on Feb. 27, 2004.

The application has been amended as follows

In claim 43, line 1 "Claim 1" should be changed to --Claim 35--.

9. The following is an examiner's statement of reasons for allowance:

Regarding claims 35, 55, although, the prior arts disclose the routing system. None of them teach the means for altering the specified notification contact flow sequence according to the specified subsequence actions contained in the addition information or instructions received from each of the one or more configured communication receiving devices and means for carrying out subsequent actions to be

Art Unit: 2683

taken by the network according to the altered specified notification contact flow sequence and none of them teach the routing network with more specific detail as described in claimed 35 and 55.

Claims 36-51 are allowed as being dependent on independent claim 35.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 703-305-4024. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Trost can be reached on 703-308-5318. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
